CONTRACT LET FOR
\$200,000 STADIUM
BE ERECTED SOON

MAHATMI GHANDI
AS COMMENCEMENT
SPEAKER IN JUNE

The contract for the erection of a new \$200,000 stadium to be erected on the northeast section of the campus has been let and work will begin immediately. The stadium will be completed for the opening football game next fall with the University of Southern California on October 6.

The Darby Construction Company will begin work on the stadium Monday morning. This huge amphitheatre will seat 60,000 people with a possible seating capacity of 100,000 more on portable bleachers that can be placed in the opening of the horse-shoe shaped structure.

The opening game with the University of Southern California will be in the form of a dedication of the new field which will be named later. This game will be broadcast over the N.B.C. network by none other than "Bill" Munday through our own station S.G.T.C. Many notables are expected

TWO VERY IMPORTANT
ANNOUNCEMENTS ARE
MADE BY DR. TAYLOR

Dean Hoy Taylor rejoices to announce that there will be no final examinations and no more chapel programs for this year.

These two statements were made today by Dean Taylor to a George-Anne reporter. Not only will there be no final examinations this spring but they have been abolished forever at S.G.T.C.

Many suggestions have been made for a substitute for the final examinations including one by a local faculty member suggesting that the students plant a row of trees from the College to the spot where Oglethorpe landed on Yamacraw Bluff.

At the chapel hour on Monday Mr. Wells will be found at his home and on Tuesdays at the same hour Dr. Taylor will take a nap.

to attend the opening game including Gov. "Dick" Russell of Georgia, Gov. James Rolph, Jr. of Calif. Hubert Dewberry and others.

By special wire from India last night Mahatmi Ghandi accepted the invitation to deliver the baccalaureate address at this year's commencement, on the evening of May 31.

The reasons for the choice of this College in preference to other schools of the U.S. is unknown. It is understood, however, that the Head of the History Department is a personal correspondent of his.

Preparations are under way for his arrival and visit. Pres. Wells will have him as his house guest. Miss Michael will have charge of his young English interpreter and Prof. Barron will keep the goat. The gymnasium will be converted into headquarters for newspapermen and other officials. The Board of Regents will meet Ghandi as he enters the Savannah port and will form an honorary escort to Statesboro. Miss Ruth Bolton is creating a robe for the celebrity. A unique feature is the wide sleeves lined with white on which are engraved in gold letters the Ideals of the College.

GEORGE---Anne

Published occasionally by one or two of the Journalism students while the others offer excuses why they could not help. There is no publication when Mr. Donaldson feels bad, when the mimeograph is in Savannah, when the ink gives out, when the paper runs low. There is a possibility that this may be the last issue unless the students stop hoarding their money and fees are paid.

Members of the class in good standing:

SPRING

Spring is here, not at last, because we have had spring all winter. At Christmas we had unusually warm weather. On July 4 do not be surprised to find Santy coming down the chimneys and snow on the ground

WE DO NOT WANT YOUR CONTRIBUTIONS

This little paper can exist without contributions from the student body. Do not send any in at anytime, we do not want them.

APRIL FOOL OR NO APRIL FOOL
 DEAN TAYLOR POSITIVELY DID
 ATTEND A DANCE AT THE WOMAN'S
 CLUB LAST FRIDAY EVENING

" GEORGE---ANNE "

ANTI*GOARDING-HOARDING

The students of the South Georgia Teachers College, according to several outstanding financial leaders, are not playing square with the nation in this present crisis.

It is a known fact that the students here are hoarding their money. Last weeks issue stated that what we need is anti-goarding. Well, goarding or hoarding the George-Anne appeals to the students here to stop hoarding. Get those bills, fives, tens, etc. out from under your trunks, out of the goards and spend them. Why not send your help in this trying time when those with money are called upon to spend, spend, spend.

Lets make the nationx proud of S.G.T.C. and turn loose that hidden wealth that we have tucked away in our rooms, in the woods and concealed about on the campus.

STATION

S.G.T.C.

The recent installment of the broadcasting station marks a new era in the history of South Georgia Teachers College. By popular vote the station has been named S.G.T.C.. This addition to the college equipment has attracted much notice among educational circles. This interest is due largely to the home study courses taught daily by professor Singley, Carruth, Barron, and Witcher. All the schools of southeast Georgia tune in daily on The School Hour conducted by Mr. Donaldson.

Indeed the prophecy has come true that South Georgia Teachers College xg should be the center of the educational activities in Georgia.

The x educational institution at Hebron, Palestine is called "Slobodka Yesnivah, and we'd like to see the fellow who can work that into a yell."

NEW COURSE OFFERED

Due to the extremely complicated world in which we live and the grave necessity of knowing how to find, woo, and win a woman or man with the proper character, etc., the college authorities have definitely decided wise to include a course in how to make love for the purpose of winning your fair lady.

One of the most important reasons, it is understood from reliable authority which prompted the faculty to make this move, is the collection of faculty members which are accumulating around the college. Something drastic had to be done for in a few more years the college would have been turned into a home for ladies.

Then think of the shy timid students with inferiority complexes who would benefit by this course. It would certainly develop some traits in the individual which would be of credit to them.

The course has been adopted and the plans and outlines of the work are to be fostered by Professor Talmadge Roberts who has long been recognized as an authority on the subject.

The feature of the course will not be enumerated in these columns, but Miss Michael, secretary to the president, will be glad to furnish additional information.

It is also understood that applications for this course are being sent in to the registrar in large numbers. Those interested had better sign up right away.

WELLS HERE FOR WEEK

Though the exact week is not known it is definitely announced from his office that President Wells will spend one week at Collegeboro this spring.

When this announcement was rumored many of the students doubted, but unless there is a convention, group meeting, or gathering of some kind in the south this spring, the president will spend at least six days near the college. During his stay here he will be in his office at all hours and cannot be found anywhere near shrubbery and plants on the campus.

SMITH ENDOWMENT

Coach B. L. "Crook" Smith has donated to the college \$5,000.00 to be used as an endowment for worthy girls and boys. Applications for this scholarship must be made in person to the Coach. It is also rumored that the Coach has ordered for the library a set of books on "The Training of Bird Dogs". Included in this set is a volume giving instructions on how to keep from losing young dogs.

This space gives another chance to plead with the students not to hoard their money.

VALUE RECEIVED

McSniff had never known to give anything away. He either sold it or asked for something in exchange. One day in a bus he sat next to a man who coughed and sneezed at frequent intervals. After a while McSniff turned to him.

"Mon, but you've got an awful cold," he said.

"Yes" sniffed the other, "Its the worst I ever had."

"Then look here," went on the Scot, "I know a simple but effective remedy that will cure it in a day or so"

A hopeful smile came over the mans face.

"I shall be very grateful if you will tell me your remedy", he replied.

"T'll do it," said McSniff

"If you'll give me a cure for some corns on my right foot".

NEW DEAN OF WOMEN

Professor T.A. Witcher who has only been a member of the faculty since September is the unanimous of the faculty, alumni, and students for the place of Dean of Women. Though Professor Witcher has never served in this capacity before, it is believed that he will fit the place perfectly.

According to the the to-be Dean the students will be permitted to spend four week-ends each month away from the campus and will be allowed to go to town only six afternoons each week.
